OPRAH WINFREY-SUPPORTED BIKING BISHOP KICKS OFF CRUSADE

The Biking Bishop's COVID-19 Student Family Relief Project
A Humanitarian Campaign for charity will be biggest one ever

Atlanta GA – August 11, 2020 – On Veteran's Day of 2019, military veteran, Atlanta native & internationally recognized State Bishop Andre' A. R. Willis/Bishop Dr. Dre' aka "*THE BIKING BISHOP*", along with his wife Burlinda D. Hardnett-Willis aka "Pastor Lin", officially announced his fourth and final 3,000-mile charitable biking trek across the United States. Famed TV Host & Media Mogul Oprah Winfrey has supported "*THE BIKING BISHOP*" who would have been biking, once again, for humanity.

The Biking Bishop and The City of Life Foundation have relaunched the 2020 campaign due to the recent pandemic. We are here to combat the effects of COVID-19. There are millions of lives that have been impacted by this deadly coronavirus. Our goal is to provide relief for families that are struggling due to unemployment, sickness, death and the recent COVID 19-related shutdown of our country. Families' resources have become extremely limited to pay for basic necessities like rent, utilities and food. Fairly simple – you complete the applicable forms, answer a few questions and submit a small application fee. Besides the financial barriers, there are many other barriers (including but not limited to) such as the effects of social distancing and Stay-At-Home orders to the personal lives of students. No area of our lives has gone unaffected. Schools are now virtual and many families can't afford computers, or to feed their loved one due as many are forced (or ordered) to stay at home – yet, another burden by-product of the virus-driven shutdown of schools and business. There should not be stumbling blocks or deterrents in receiving much-needed support when it is needed. And because of this, we will provide assistance to those affected families on a **first come, first served basis**.

The **ReLaunched 2020 COVID-19** Student Family Relief Project is a **2 for 1** effort, by giving, donors will also be helping students in Liberia to receive desperately needed assistance. We will be remodeling and upgrading the school that has fallen short of completion due to a lack of funds. The community's support will help pay student tuitions for those needy scholars who can't afford it.

This first come, first-served program is geared for tuition-based institutions from universities to montessoris and is for limited time and space. It's about "*People Helping People*"
